

FEBRUARY IS... Prevent a Litter M♥nth

Q. What happens when there's too many pets?
A. There's just never enough homes.

National Prevent a Litter Month encourages pet owners to spay/neuter their pets while spreading awareness of overpopulation.

Did you know...

Cats and puppies as young as 4 to 5 months old can become pregnant? According to the ASPCA, approximately 6.5 million companion animals enter U.S. animal shelters nationwide every year. Of those, approximately 3.3 million are dogs and 3.2 million are cats. A significantly small number dogs are recovered by their owners or maybe even adopted into new families. It's the reason why the fate of milliond of dogs, cats, puppies, and kittens are sadly euthananized. However...

We can stop this.

With your tax- deductible donation, we can make a significant difference to overpopulation while saving millions of lives from being euthanized. No kitten, puppy or unwanted pet should ever have to be put to death. *The best way to help eliminate this problem is to neuter your pets.* Together, we can help eradicate the suffering and death of pets just by spaying and neutering in the most effective and humane way.

Help us spread the word.

Prevention and awareness are an all year event that can eradicate animal neglect and abuse. Join us to help stop overpopulation and give life a new meaning by being part of this nationwide solution. Send in your tax-deductible donation today.

_____ YES! I would like to give life a new meaning by being part of the solution in reducing pet overpopulation. Please find my enclosed donation to help neuter or spay a cat or dog.
